REPORTS & UPDATES

Victorian EV Association requested help from anyone re standards development.

ACT EV council has no news to report.

SummerNats video and photos were shown.

Paul's electric motor Bike 1 year on.

Events – 2011 EV Festival update full plan and budget

Deferred not quite ready (next few weeks).

Paul Riker AAMA Melbourne after market expo in May

David provided a presentation on trends in Battery technology. This caused lots of discussion and was of major interest. Lithium batteries can apparently be 98% recycled. There are recycling drop off spots at most tips.

DIY conversion presentation – motor bike conversion project: Paul

Paul showed slides and talked through his decision making. He bought along a mock up of the battery support system.

Tony spoke about Summernats experience. His bike's engine should go in soon. Then how to mount the batteries will have to be nussed out.

Peter reported on the very innovative airconditioning system he has installed in his car".

Hayden reported on the 1st 50 project.

Media release - availabilities of Hyundais.
